RE: Recommendation Letter for David Hicks & Associates

To whom it may concern:

I have been the manager of the Fort Mitchell Water System since 1987. During this time the water system has grown from 500 customers to nearly 4500 customers today. The rapid growth, although welcomed, has caused the need for expanded infrastructure. Since 1990 David Hicks & Associates has been a crucial part in ensuring that the proper infrastructure has been in place to meet the increasing customer demands.

Over my twenty three year relationship with Mr. Hicks and company, they have been easy to work with, honest, upfront, and always available. Anytime I've needed something David Hicks & Associates has delivered. Two summers ago the system was having a difficult time keeping up with demand and some line upgrades were needed to meet the increased demands. I called Mr. Hicks and he had someone in Fort Mitchell immediately and worked nonstop until the plans were complete, permits in hand, and construction had begun.

David Hicks & Associates has always served the Fort Mitchell Water System with professionalism and integrity and I would not hesitate to recommend their services to anyone.

Sincerely,

David Ellis  
Manager
